

ÜRÜN	AS5500G5
Denetleyici	2 - 16
Ana Ünite Boyutu	2U12, 2U25, 3U48
İşlemci	Multi-core
Sistem Ön Belleği	256GB-8TB
Desteklenen Protokoller	FC, iSCSI, NFS, CIFS, HTTP, FTP
Port Tipleri	16/32Gb FC, 1/10/40Gb iSCSI
Desteklenen Disk Tipleri	SSD, SAS, NL-SAS
Desteklenen Disk Sayısı	2992-23936
Sistem Bağlantıları	6 - 48
Genişleme Bağlantı Tipleri	SAS3.0, single port 4*12Gbps
Genişleme Kasaları	2U12, 2U25, 3U48, 5U92
RAID Seviyeleri	0, 1, 3, 5, 6, 10, 50, 60, InRAID
Kaynak Verimliliği	<p>Intelligent Thin Provisioning (InThin)</p> <p>Intelligent virtualization RAID (InRAID)</p> <p>Intelligent data migration (InMigration)</p> <p>Intelligent online compression (InCompression)</p> <p>Intelligent tiering (InTier)</p> <p>Intelligent volume conversion (Intune)</p> <p>Intelligent heterogeneous virtualization (InVirtualization)</p> <p>Intelligent file service (InFileService)</p> <p>Intelligent online deduplication (InDedupe)</p> <p>Intelligent multi-tenant (InMulti-tenant)</p>
Veri Koruma	<p>Intelligent snapshot (InSnapShot)</p> <p>Intelligent cloning (InClone)</p> <p>Intelligent backup (InBackup)</p> <p>Intelligent disk mirroring (InVdiskMirror)</p> <p>Intelligent remote replication (InRemoteCopy)</p> <p>Intelligent active-active (InMetro)</p> <p>Intelligent cloud tiering (InCloudTier)</p> <p>Intelligent encryption (InEncryption)</p> <p>Intelligent data destruction (InErase)</p>
Kritik Görevler Garantileri	<p>Intelligent quality of service (InQoS)</p> <p>Intelligent automatic cache partition (InAutoPartition)</p> <p>Intelligent cache acceleration (InFlashCache)</p>
Sanallaştırma Özellikleri	<p>Heterogeneous virtualization: supports 95%+ of the models for unified management.</p> <p>RAID virtualization: block-level virtualization, system balancing, no hot spots.</p> <p>Virtualization system supports mainstream virtualization technologies, such as IntelliSense plugins (i.e.VAAI, VVOL, VASA, vCenter integration).</p>
